

FC35 RX7 Front Lip (2 Piece) Installation Guide

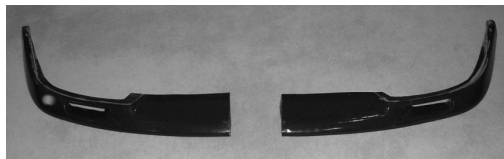

Congratulations on purchasing your new Front Lip! This leaflet contains important information regarding your product.

Kit Contents:

1 x Left Hand Side of Lip 3 x Bolts
1 x Right Hand Side of Lip 3 x Nuts

Please follow these directions:

1. Place parts next to each other and align the holes.

2. Place bolts through the holes and tighten with the washers and nuts provided.

NOTE: Be careful not to over tighten and crack the fiberglass. You may also wish to use some sort of adhesive to aid in bonding the two halves together.

3. You should now have the lip assembled, attach to the front bar by drilling and screwing.
